Functions & Features

- **Perfect for Most Furry Pets**

One ideal brush for dogs, cats, and other pets of all sizes and hair length, with well-designed bristle area.

- **Effective Yet Gentle Cleaning**

Safely remove loose hair, shed fur, dander without irritation or scratching. Trap grime, dirt by releasing negative ions.

- **Smooth Hair & Healthy Coat**

Vibration helps get rid of stubborn tangles, knots, mats, keeping your pet's coat smooth, shiny and healthy.

- **Self-Cleaning & Hassle-free**

Super easy to dispose the collected hair just in one hand with the trigger release design.

- **Ionic Sterilization & Static Elimination**

Effective kill bacteria (>99.9%), reducing health risks for pets & owners, and remove static electricity.

- **Relaxing & Soothing Vibration Massage**

Double enjoyment from soft bristles and gentle vibration to massage pet's muscles, stimulate blood circulation, relieve stress & anxiety.

- **Wood's Lamp Health Exam**

Detect skin fungal infection like ringworm, urine stains, and fluorescent agent in daily necessities like diapers, paper.

- **Interactive Red Light Teasing for Fun**

Spend happy time with your pets with the red light pointer (<1mW, compliant with safety standards).

- **Multiple Safety**

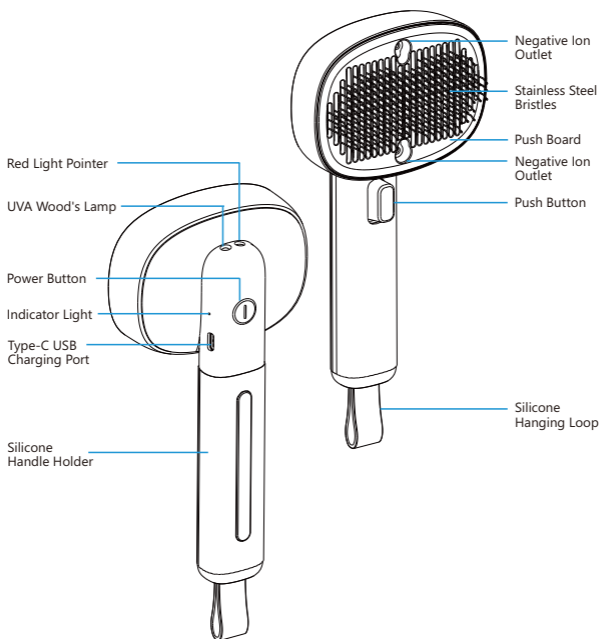

Compliant with CE RoHS standards; Ozone-free; Skin-friendly silicone material.

- **Easy & Ecofriendly**

No consumables. Universal and convenient Type-C USB charging. One charge can provide a battery life of over a year (2-minute daily use).

Specifications

Input:	5V
Power:	≤0.5W
Anion concentration:	tens of millions level
Product dimensions:	223*93*60.5mm
Net weight:	175g
Battery capacity:	200mAh
Charging time:	about 1.5 hours
Battery life:	about 450 days (using Ionic Mode for 2 minutes daily)
Modes:	Ionic Mode, Massage Mode, UVA Mode, Fun Mode

How to Use

Multifunctions

Short press the power button: turn on/switch between Massage Mode, UVA Mode, Fun Mode

- **First short press: Enter Massage Mode**

The pet brush will start vibrating, allowing you to massage and brush your pet's hair at the same time.

- **Second short press: Switch to UVA Mode**

The UVA Wood's lamp at the top of the handle will turn on. Point to pet's fur to detect fungal infection such as ringworm; Point to daily necessities like diapers, tissues to detect fluorescent agent risks, urine stains.

- **Third short press: Switch to Fun Mode**

The red light at the top of the handle will turn on, allowing you to interact and play with your pet by pointing to the floor or wall.

- **Fourth short press: Turn off Fun Mode.**

Long press the power button: turn on/off Ionic Mode

- **First long press: Turn on Ionic Mode**

Negative ions bring better grooming, cleaning and sterilizing effect, and they can remove static electricity. The indicator light will be green.

- **Second long press: Turn off Ionic Mode**

Multiple ways to use

Negative ion mode can be used in combination with other three modes at the same time, such as: By turning on both Ionic Mode and Massage Mode, you will get the enhanced functions of detangling, removing floating hair, deep cleaning, and massage.

One-click self cleaning

After grooming, press the Push Button to remove the collected hair on the pet brush easily. You can also clean it with the dust brush.

Low battery reminder

When the battery is low and about to run out, the red indicator light will flash continuously. (Note: if the negative ion mode is turned on, it will flash alternatively between orange and green). Please charge it in time.

Pet Brush Status		Indication Light Status
Power off, or charge when Massage/UVA/Fun Mode is on	Charging	Red light
	Fully charged	Light off
Charge when Ionic Mode is on	Charging	Orange light
	Fully charged	Green light
